At over 900,000 cars produced - and counting - the Mazda MX-5 holds the Guinness World Record as the best-selling two-seater sports car ever produced. And while mere numbers should not be the only barometer of success, it has taken a car of the MX-5's talent to capture the imagination of both enthusiasts and the general motoring public alike. Mazda MX-5 - The Complete Story examines the design, development and production of this innovative sports car. Topics covered include: Details of the engine and drivetrain technology that gave the MX-5 its sharp handling and performance; Chronicles the stories of the engineers and designers behind the MX-5's success; Looks at the closest contemporary rivals to the car, and why the MX-5 was far and away the most successful; Covers all special editions and the racing story; Includes a detailed buyer's guide for each generation, specification tables and owner's experiences. A concise, detailed guide to this groundbreaking and innovative sports car. Superbly illustrated with 200 colour photographs. Antony Ingram is a freelance motoring writer and is passionate about classic cars and modern performance vehicles. With more than 300,000 built, the Triumph Spitfire is the bestselling Triumph sports car model ever produced. As the values of these cars have risen significantly in recent years, interest in these affordable sports cars has also increased. This concise but comprehensive book is therefore the ideal guide for those who want to read about the history and development of these iconic sports cars. Introduced at the London Motor Show in 1962, the Triumph Spitfire was designed to compete in the small sports car market against models such as the Austin-Healey Sprite. Based on an adapted Triumph Herald chassis, the Triumph Spitfire's swooping lines were designed by Italian designer Giovanni Michelotti. In this highly readable book, John Nikas describes all the technical and design developments that took the Triumph Spitfire through five separate models, from the Triumph Spitfire 4 (Mark 1) to the Triumph Spitfire 1500. The book also covers the competition models. The Alfa Romeo 105 series Spider is one of the most admired drop-head sports cars to come out of Italy. Launched in 1966, its radical new look was not immediately welcomed. As prospective buyers gradually warmed to the model, enhancements were introduced including more powerful engines and higher-spec body and interior fittings. Despite its inauspicious start, production of this much-admired car lasted for twenty-seven years, finally stopping in 1993. Jim Talbott and Andrew Brown pay homage to the 105/115 series Alfa Spider. With over 330 photographs, many specially commissioned, this new book describes the Alfa Romeo company history including its philosophy of incorporating driver appeal into all of its products, resulting in some of the most desirable vehicles of their age; it details the evolution of the 105/115 series through four distinct body styles; lists the technical design specifications and every major version of the Spider and finally, discusses the issues and challenges of finding and owning a classic Spider. Alfa Romeo is synonymous with style and performance. These qualities are epitomized in forty years' production of the famous Alfa Romeo series of Spider sports cars. From the Giulietta Spider of 1955 to the latest style launched in 1996, John Tipler offers the full and fascinating story of the conception, design, introduction and production of these stylish automobiles. Bentley designed and built the first 3 Litre Bentley and a car and a name were created to catch the imagination of millions. This revised book traces the development of the Bentley from its beginning in 1919 until 1969. In 1969, the Camaro with the SS package took Chevy Camaro performance and styling to another level. First, the Camaro carried updated sheet metal for an aggressive and eye-catching appearance, and the ultra-high-performance 427 big-block engines were available for the first time. As history proved, 1969 was the pinnacle of performance and styling for the first-generation Chevy Camaro. Author and muscle car expert Robert Kimbrough provides a comprehensive examination of the all-time classic 1969 Camaro SS in Volume No. 4 of CarTech's In Detail series. He delves into the design, manufacturing, and equipment of Chevrolet's premier pony car. For the first time in its history, the 1969 Camaro SS had a full slate of high-performance small-blocks as well as big-blocks to conquer the competition on the street and track. The engines included the 350, 375-hp 396, and 425-hp COPO 427 Camaros. The Camaro SS made such an impression, that it became the Indy 500 Pace Car once again in 1969. All In Detail Series books include an introduction and historical overview, an explanation of the design and concepts involved in creating the car, a look at marketing and promotion, and an in-depth study of all hardware and available options, as well as an examination of where the car is on the market today. Also included is an appendix of paint and option codes, VIN and build-tag decoders, as well as production numbers. Alfa Romeo 916 GTV and Spider traces the complete story of the Alfa Romeo GTV and Spider models produced between 1994 - 2005, commonly known to enthusiasts by the manufacturer's project code as the 916 series. The 916 models would always be controversial - they replaced the iconic Spider, the best-selling Alfa Romeo sports model of all time, and the brand-establishing Alfetta GTV. Sharing components and a platform with a humble Fiat hatchback, would the cars ever be considered 'real' Alfa Romeos? The cars were critically acclaimed, and, though they faced tough competition in the late 1990s from the likes of the Audi TT, they remained in production for over a decade. Topics covered include: Full history of the 916 series GTV and Spider models; Design, development and evolution of the models from 1994 - 2005; Participation of the GTV in motorsport; Model variations in depth through all three facelifts; Previously unpublished production figures, and chassis numbers for the desirable, limited-edition GTV Cup model. Comprehensively researched guide to the entire lifespan of the 916 series. Will appeal to Alfa Romeo and automotive enthusiasts. The history and design process are examined along with an in-depth guide to each of the model variants produced. The cars' current position in the classic car market is considered. Superbly illustrated with 240 colour photographs. Robert Foskett is a life-long Italian car enthusiast with a special interest in Alfa Romeo.
