A Practical Guide to Software Licensing for Licensees and Licensors Sep 28 2019 This new third edition is revised and updated with three new chapters and numerous forms. It examines the fundamental issues that both licensors and licensees confront in the negotiation of a software license and, where appropriate, looks at relevant ancillary issues such as software development as well as maintenance and support. It primarily focuses on non-mass market agreements, since most retail or mass market off-the-shelf software is governed by non-negotiable shrinkwrap and clickwrap licenses. The book is accompanied by and cross-referenced to an annotated software license. A companion CD-ROM is also included for customization of the software license and related forms.

A Natural History Guide to Great Smoky Mountains National Park Aug 27 2019 The Great Smoky Mountains National Park is one of America's most beautiful and popular national parks. Located in the southern Appalachian Mountains of Tennessee and North Carolina, it is home to more than 100,000 species of plants and animals. The grandeur and sheer scale of the park has been captured in Donald W. Linzey's new book, Natural History Guide to the Great Smoky Mountains National Park. It is the most extensive volume available on the park's natural history. Written from the perspective of a naturalist who has

spent over fifty years conducting research in the park, this volume not only discusses the park's plant and animal life but also explores the impact that civilization has played in altering the area's landscape. Linzey, who has been a major contributor to the All Taxa Biodiversity Inventory, a concentrated effort to identify every species of plant and animal living within the park, draws from this deep reservoir of research. His book provides a thorough overview of everything a visitor to the park would need to know, without complex jargon. Both casual readers and those more interested in the ecology of the Great Smoky Mountains will find this book an enlightening and educational guide. Donald W. Linzey, a wildlife biologist and ecologist, is professor of biology at Wytheville Community College in Wytheville, Virginia. He is an authority on the mammals of the Great Smoky Mountains National Park and its environs.
