Food Service Manual for Health Care Institutions offers a comprehensive review of the management and operation of health care food service departments. This third edition of the book—which has become the standard in the field of institutional and health care food service—includes the most current data on the successful management

of daily operations and includes information on a wide variety of topics such as leadership, quality control, human resource management, communications, and financial control and management. This new edition also contains information on the practical operation of the food service department that has been greatly expanded and updated to help institutions better meet the needs of the customer and comply with the regulatory agencies' standards. The Training Manual is the premier reference and review publication for individuals preparing for examinations given by The Certification Board for Sterile Processing and Distribution. It is a concise, applicable tool that can be used for orientation, training, and instructional programs in health care facilities and in institutions for learning. The Fifth Edition of the manual is the largest and most comprehensive to date. Rev. ed. of: Abingdon hospital visitation manual. c1988.
