**Grandad Mandela** Dec 05 2020 "...profoundly moving..." -Publishers Weekly Nelson Mandela's two great-grandchildren ask their grandmother, Mandela's youngest daughter, 15 questions about their grandad - the global icon of peace and forgiveness who spent 27 years in prison. They learn that he was a freedom fighter who put down his weapons for the sake of peace, and who then became the President of South Africa and a Nobel Peace Prize-winner, and realise that they can continue his legacy in the world today. Seen through a child's perspective, and authored jointly by Nelson Mandela's great-grandchildren and daughter, this amazing story is told as never before to celebrate what would have been Nelson's Mandela 100th birthday.

**In Camera: How to Get Perfect Pictures Straight Out of the Camera** Oct 27 2022 With

amazing low-light capabilities, incredible definition, intelligent autofocus and a host of other features, digital cameras have now become so powerful that they have left their users behind. Most photographers can take competent shots in a range of conditions, or fix imperfect exposures in Photoshop or Lightroom, but very few have the skill to push their cameras to the limit and capture the perfect shot, under all conditions, with no post-processing required. In Camera is the perfect way to take your photography to that level; to master your camera, understand light, exposure and composition, and make amazing photographs, whatever your camera, without cheating after the event. One hundred of Gordon's beautiful photos are given with his own expert commentary; full settings and camera details are included, and a host of tips and tricks let photographers of any level learn something from every example. The shots are taken with a wide range of cameras, and the emphasis is on getting results by improving your own skills, not wasting money on expensive equipment.

*Knowledge Science, Engineering and Management Aug 01 2020* This two-volume set of LNAI 11775 and LNAI 11776 constitutes the refereed proceedings of the 12th International Conference on Knowledge Science, Engineering and Management, KSEM 2019, held in Athens, Greece, in August 2019. The 77 revised full papers and 23 short papers presented together with 10 poster papers were carefully reviewed and selected from 240 submissions. The papers of the first volume are organized in the following topical sections: Formal Reasoning and Ontologies; Recommendation Algorithms and Systems; Social Knowledge Analysis and Management ; Data Processing and Data Mining; Image and Video Data Analysis; Deep Learning; Knowledge Graph and Knowledge Management; Machine Learning; and Knowledge Engineering Applications. The papers of the second volume are organized in the following topical sections: Probabilistic Models and Applications; Text Mining and

Document Analysis; Knowledge Theories and Models; and Network Knowledge Representation and Learning.

**Ask Dr. Mueller** May 30 2020 Ask Dr. Mueller captures the glamour and grittiness of Cookie Mueller's life and times. Here are previously unpublished stories - wacky as they are enlightening - along with favorites from Walking Through Clear Water in a Pool Painted Black and other publications. Also the best of Cookie's art columns from Details magazine, and the funniest of her advice columns from the East Village Eye, on everything from homeopathic medicine to how to cut your cocaine with a healthy substance. This collection is as much an autobiography as it is a map of downtown New York in the early '80s - that moment before Bright Lights, Big City, before the art world exploded, before New York changed into a yuppie metropolis, while it still had a glimmer of bohemian life.

Katie's Cabbage Dec 17 2021 Katie's Cabbage is the inspirational true story of how Katie Stagliano, a third grader from Summerville, South Carolina, grew a forty-pound cabbage in her backyard and donated it to help feed 275 people at a local soup kitchen. In her own words, Katie shares the story of the little cabbage seedling and the big ideas of generosity and service that motivated her to turn this experience into Katie's Krops, a national youth movement aimed at ending hunger one vegetable

garden at a time. Katie's Cabbage reminds us of how small things can grow and thrive when nurtured with tender loving and care and of how one person, with the support of family, friends, and community, can help make a powerful difference in the lives of so many. Katie's Cabbage was illustrated by Karen Heid, associate professor of art education at the University of South Carolina School of Visual Art and Design. Editorial assistance was provided by Michelle H. Martin, a dedicated gardener and the Augusta Baker Chair in Childhood Literacy at the University of South Carolina School of Library and Information Science. Patricia Moore-Pastides, First Lady of the University of South Carolina and author of *Greek Revival from the Garden: Growing and Cooking for Life*, offers a foreword about her friendship with Katie and her admiration of Katie's dream to end hunger one garden at a time.

Chasing Chariots Aug 25 2022 The present work is the result of the First International Chariot Conference, jointly organised by the Netherlands-Flemish Institute in Cairo (NVIC) and the American University in Cairo (AUC) (30 November to 2 December 2012). The intention of the conference was to make a broad assessment of the current state of knowledge about chariots in Egypt and the Near East, and to provide a forum for discussion. A wide variety of papers are included, ranging from overviews to more detailed studies focusing on a specific topic. These include philology, iconography, archaeology, engineering, history, and conservation. The book is of interest to scholars as well as anyone with an interest in ancient technology, transportation, or warfare.

Plenty of illustrations and examples of the effects of the control settings and extensive background

information on the image taking process with this camera. Advice on how to take pictures in any situation and practical advice for recording video and audio with this camera from lighting and external audio recorder and microphone choice. Practical hints and tips for advancing your photography with access to more tutorials and web-based information.

**Closure and Other Stories** Nov 23 2019 Married at nineteen, she was a war widow at twenty. Now 85 years old, Meara Sullivan is determined to reconnect with her husband who died during World War II on D-Day. They knew each other as husband and wife for only five days when Private 1st Class Paul Hughes shipped off for Europe, never to return. CLOSURE, the anchor story of this 7-story anthology, recounts Meara's unlikely trail of discovery. Told in a series of flashbacks, CLOSURE captures life on the home front for Meara and Paul in 1940s Boston and offers a gripping account of the young soldier's part in the greatest amphibious invasion in military history. Dan Celeste is both narrator and participant in each of the anthology's seven tales. His personal story interlaces historical events, intriguing characters, and coming-of-age lessons. CLOSURE and Other Stories spans seven decades, beginning in 1943 and ending in 2011 when Meara completes her quest for renewal.

**Tiberius Found** Aug 13 2021 What would you do if you discovered your whole life to be a lie? Daniel Henstock thinks he's an ordinary schoolboy but on his sixteenth birthday his world is turned upside down. He is the world's first one-hundred percent genetically-engineered human - assigned the codename Tiberius - and Gregory Dryden, the man responsible, wants him back so that he can continue his deadly experiments. Running for his life, Daniel flees to New York and is forced to go 'off-grid'. In this near-future America, where the security-obsessed authorities require citizens to carry DNA cards, Daniel meets the feisty and beautiful Eleanor. But by falling for her, Daniel also

puts her in terrible danger. Daniel pursues the facts about his origins but is hunted by an agent sent by Dryden to bring him to heel. Can Daniel find out the truth whilst trying to evade those who think they own him? As his enemies close in Daniel must draw on resources he never knew he had to win his freedom - but in doing so he may be walking into a deadly trap ... TIBERIUS FOUND is the first instalment in a thrilling series - The Emperor Initiative - that introduces an engaging new hero that will appeal to fans of Alex Rider and Jason Bourne.

**1001 Walks** Apr 28 2020 1001 Walks You Must Experience Before You Die features wide-ranging, carefully chosen routes varying from the rugged delights of the Pembrokeshire Coastal Path to the wilderness of Jamaica, and the Harz Witches' Trail high up in the German mountains. The hand-picked excursions take in mountain passes, woodland paths, ancient Native-American trails, and much more. There are easy walks for beginners-some lasting barely an hour - and more demanding challenges that may take several weeks to complete. Every fact-packed entry provides a wealth of information about a must-try walk, including essential details about its start and finish points, overall distance, difficulty rating, maps, and the time it should take to complete. In short, 1001 Walks You Must Experience Before You Die is an essential reference book and guide for all those who love to get out of their cars, get off their bikes, and lace up their walking shoes.

**Ultracapacitor Applications** Feb 19 2022 Energy storage and in particular electrical storage of energy has become a very talked about topic in circles ranging from lay persons, in regard to hybrid and battery electric vehicles, to professionals, and certainly by legislators and energy policy makers in government. This book takes a critical look at the physical storage of electricity in the devices known collectively as electrochemical capacitors and particularly as ultracapacitors. Its 12 chapters cover ultracapacitor and advanced battery topics with an emphasis on a clear understanding of

fundamental principles, models and applications. But even to professionals the distinctions between physical and chemical forms of electric energy storage are unclear and at times poorly understood, if at all. The reader will appreciate the case studies ranging from commercial to industrial to automotive applications of not only ultracapacitors, but of these power dense components in combination with energy dense battery technologies. The text is aimed primarily at industrial and automotive applications engineers and engineering staff engaged in energy storage systems and electric drives.

**Progress in Cultural Heritage Preservation** Oct 15 2021 This book constitutes the refereed proceedings of the 4th International Conference on Progress in Cultural Heritage Preservation, EuroMed 2012, held in Lemesos, Cyprus, in October/November 2012. The 95 revised full papers were carefully reviewed and selected from 392 submissions. The papers are organized in topical sections on digital data acquisition technologies and data processing in cultural heritage, 2D and 3D data capture methodologies and data processing in cultural heritage, 2D and 3D GIS in cultural heritage, virtual reality in archaeology and historical research, standards, metadata, ontologies and semantic processing in cultural heritage, data management, archiving and presentation of cultural heritage content, ICT assistance in monitoring and restoration, innovative topics related to the current and future implementation, use, development and exploitation of the EU CH identity card, innovative technologies to assess, monitor and adapt to climate change, digital data acquisition technologies and data processing in cultural heritage, 2D and 3D data capture methodologies and data processing in cultural heritage, on-site and remotely sensed data collection, reproduction techniques and rapid prototyping in cultural heritage, 2D and 3D GIS in cultural heritage, innovative graphics applications and techniques, libraries and archives in cultural heritage, tools for education,

documentation and training in CH, standards, metadata, ontologies and semantic processing in cultural heritage, damage assessment, diagnoses and monitoring for the preventive conservation and maintenance of CH, information management systems in CH, European research networks in the field of CH, non-destructive diagnosis technologies for the safe conversation and traceability of cultural assets.

*Computational Physics* May 22 2022 This book explains the fundamentals of computational physics and describes the techniques that every physicist should know, such as finite difference methods, numerical quadrature, and the fast Fourier transform. The book offers a complete introduction to the topic at the undergraduate level, and is also suitable for the advanced student or researcher. The book begins with an introduction to Python, then moves on to a step-by-step description of the techniques of computational physics, with examples ranging from simple mechanics problems to complex calculations in quantum mechanics, electromagnetism, statistical mechanics, and more.

*Comercio electrónico* Dec 29 2022 Este libro desarrolla los contenidos del módulo profesional de Comercio Electrónico del Ciclo Formativo de grado medio de Actividades Comerciales, perteneciente a la familia profesional de Comercio y Marketing, según lo establecido por el Real Decreto 1688/2011, de 18 de noviembre, de enseñanzas mínimas de dicho título. La materia se ha distribuido en siete unidades: • Unidad 1. El papel del marketing ante el nuevo contexto social y tecnológico. • Unidad 2. Elementos distintivos y aplicabilidad del marketing digital. • Unidad 3. El comercio electrónico: realización de acciones de compraventa online. • Unidad 4. Organización y programación de un sitio web. • Unidad 5. Alojamiento y mantenimiento de un sitio web. • Unidad 6. Establecimiento de relaciones con otros usuarios de la red. • Unidad 7. La evolución de internet: web 2.0. El objetivo de este manual es exponer, a través de un lenguaje directo, claro y altamente

pedagógico gracias a la multitud de ejemplos, exposiciones prácticas y actividades que incluye, los elementos esenciales sobre los que gravita el comercio electrónico, máximo exponente de la integración actual de las nuevas tecnologías de la información y la comunicación en el ámbito empresarial, tanto en su vertiente más comercial como en la de todos aquellos aspectos relacionados con la aplicación de las distintas políticas de marketing en un entorno digital. Asimismo, a lo largo de la obra se ofrece toda la información necesaria para llevar a cabo la concepción, el diseño y el desarrollo de un sitio web, además de mostrarse cada uno de los pasos para proceder a su alojamiento en la red y su mantenimiento, siempre con el empleo de un enfoque plenamente didáctico y accesible. Cabe destacar que se trata de una obra con contenidos totalmente revisados y actualizados, que incluye las últimas novedades tanto en relación con los contenidos formativos establecidos en la normativa como en la incorporación de todos aquellos avances e innovaciones que ofrecen las nuevas tecnologías de la información y la comunicación a esta disciplina. Por último, las unidades incluyen numerosas figuras que apoyan las explicaciones, así como actividades propuestas y actividades resueltas que permiten ir fijando los conceptos aprendidos, cuadros de argot técnico, notas técnicas y cuadros de información importante. Además, estas ofrecen mapas conceptuales finales, que facilitan el repaso de los conceptos clave y actividades finales de comprobación, de aplicación y de ampliación, junto con interesantes enlaces web para profundizar en los contenidos de cada unidad.

**Computational Physics** Nov 16 2021 The use of computation and simulation has become an essential part of the scientific process. Being able to transform a theory into an algorithm requires significant theoretical insight, detailed physical and mathematical understanding, and a working level of competency in programming. This upper-division text provides an unusually broad survey of

the topics of modern computational physics from a multidisciplinary, computational science point of view. Its philosophy is rooted in learning by doing (assisted by many model programs), with new scientific materials as well as with the Python programming language. Python has become very popular, particularly for physics education and large scientific projects. It is probably the easiest programming language to learn for beginners, yet is also used for mainstream scientific computing, and has packages for excellent graphics and even symbolic manipulations. The text is designed for an upper-level undergraduate or beginning graduate course and provides the reader with the essential knowledge to understand computational tools and mathematical methods well enough to be successful. As part of the teaching of using computers to solve scientific problems, the reader is encouraged to work through a sample problem stated at the beginning of each chapter or unit, which involves studying the text, writing, debugging and running programs, visualizing the results, and the expressing in words what has been done and what can be concluded. Then there are exercises and problems at the end of each chapter for the reader to work on their own (with model programs given for that purpose).

**Growing Up Cajun** Mar 28 2020 Explore the Cajun traditions of the Walker family, creators of the Slap Ya Mama Cajun Seasoning company. Through family stories, Cajun lore, and some of the most prized recipes in Louisiana, this collection is sure to leave you feeling a little Cajun yourself.

**Changing Youth Values in Southeast Europe** Sep 14 2021 What shapes the cultural, political and ideological values of young people living in Southeastern Europe? Which identities matter to them? How are their values changing, and how can they be changed? Who is changing them? Europe's periphery is the testing ground for the success of European values and identities. The future stability and political coherence of the Union will be determined in large measure by identity issues in this

region. This book examines the ways in which ethnic and national values and identities have been surpassed as the overriding focus in the lives of the region's youth. Employing bottom-up, ethnographic, and interview-based approaches, it explores when and where ethnic and national identification processes become salient. Using intra-national and international comparisons of youth populations of Albania, Bosnia-Herzegovina, Croatia, Macedonia, Montenegro, and Serbia, contributors uncover the mechanisms by which ethnic identities are evoked, reproduced and challenged. In addition to exploring political, regional cultural generational and class identities, the contributors examine wider questions of European unity. This volume offers a corrective to previous thinking about youth ethnic identities and will prove useful to scholars in political science and sociology studying issues of ethnic and national identities and nationalism, as well as youth cultures and identities.

**Cherokee Cooklore: Preparing Cherokee Foods (Reprint Edition)** Feb 25 2020 First published in 1951, Cherokee Cooklore introduces us to traditional Cherokee cooking. It starts with a photographic essay as Aggie Lossiah demonstrates how she makes bean bread. This is followed by recipes gathered from the North Carolina Cherokee community (including yellowjacket soup, blood pudding, hominy corn drink, baked squirrel, and hickory nut soup). A description of Cherokee food customs follows. This is a fascinating booklet that provides valuable food lore for the adventuresome gourmet or the student of Native American history.

*Edible Insects* Jan 06 2021 Edible insects have always been a part of human diets, but in some societies there remains a degree of disdain and disgust for their consumption. Insects offer a significant opportunity to merge traditional knowledge and modern science to improve human food security worldwide. This publication describes the contribution of insects to food security and examines future prospects for raising insects at a commercial scale to improve food and feed

production, diversify diets, and support livelihoods in both developing and developed countries. Edible insects are a promising alternative to the conventional production of meat, either for direct human consumption or for indirect use as feedstock. This publication will boost awareness of the many valuable roles that insects play in sustaining nature and human life, and it will stimulate debate on the expansion of the use of insects as food and feed.

Santorini and Its Eruptions Jan 18 2022 Ben Lewin writes and directs this drama about the sexual awakening of a life-long polio sufferer. John Hawkes stars as Mark O'Brien, a writer in his late thirties who has spent his life lying horizontally in an iron lung since a debilitating childhood bout of polio. A poet and a romantic, Mark has lived a life devoid of sexual intimacy. When he is given the job of writing an article about the sex lives of the disabled, he arranges - with the support of his local priest, Father Brendan (William H. Macy) - to employ the services of sexual surrogate Cheryl (Helen Hunt). Their 'sessions' take Mark on an unexpected journey of discovery and self-awareness.
